Project Manager Forsberg Engineering & Surveying, Inc. 1984 – Present

Professional Experience

Mr. Lewis has over 30 years of experience in civil engineering projects including design, layout, specification writing, and construction inspection. He successfully oversees projects from conception to completion. His responsibilities include direct oversight of the engineering and surveying support for projects, while ensuring a professional, efficient design meeting the function, mission and budget goals of the client.

Mr. Lewis has completed numerous projects for private clients as well as municipal, state and federal agencies, including extensive DOD work at many military bases in the southeast. His experience also includes athletic complexes, paving projects (new and overlay) roadway and parking projects, storm drainage design, detention systems, stormwater and utility analysis and upgrades, sanitary sewer collection and pumping facilities, potable water systems, and site analysis. This design experience includes the preparation of calculations, construction drawings, specifications, bid and award support, as well as construction administration and field inspections.
