Professional Experience

Mr. Weathers is responsible for the calculations and preparation of construction drawings for sanitary sewer collection systems, potable water distribution system, storm water management and roadway systems. He is also responsible for boundary, topographic, mortgage and critical line surveys. One of his major jobs was the layout of drainage, potable water and sanitary sewer systems for an 86.3 acre subdivision in Berkeley County. He has also completed over twenty-five surveys and site adaption plans for SCE&G Electrical substations.
